

FitShare – User Stories

Navigation

US-01 As a user, I want to click nav links to move between sections, so that I can access any page from anywhere in the app.

- Active link is highlighted
- Correct page loads on click
- Logout ends session and redirects

US-02 As a mobile user, I want a fixed bottom navigation bar, so that I can switch sections easily with one thumb.

- Bottom nav is fixed and always visible
- Active tab is visually distinct
- Tapping a tab loads the correct screen

Dashboard

US-03 As a logged-in user, I want to see my name, total points, and day streak on the home screen, so that I can quickly check my progress.

- Name, points, and streak all display correctly
- Flame icon appears next to streak count
- Values update on each page load

US-04 As a user, I want to see today's workout card with the title, exercise count, and duration, so that I know what to do without navigating away.

- Card shows workout title, program name, exercise count, and duration
- A placeholder message shows if no workout is scheduled

US-05 As a user, I want to tap a Start Workout button, so that I can launch my session in one tap.

- Button is visible on every workout card
- Tapping navigates to the active workout view
- Button updates to a completed state after finishing

US-06 As a user, I want to see suggested buddy cards in the sidebar, so that I can connect with compatible partners from the home screen.

- At least one buddy card is shown
- Card shows name, level, match %, and goal tags
- Connect button sends a request when tapped

User Profile

US-07 As a user, I want to view my profile with my photo, fitness level, points, and streak, so that I have a summary of my identity and progress.

- Photo renders in a circular frame
- Fitness level badge is shown
- Points and streak display as separate stat boxes

US-08 As a user, I want to view and edit my fitness goals, so that my profile and buddy matches stay up to date.

- Goal tags are displayed
- Edit action lets me add or remove goals
- At least one goal must remain selected

US-09 As a user, I want to set my workout availability, so that I am matched with buddies who train at the same times.

- Morning, Afternoon, Evening, and Weekend options are selectable
- Multiple options can be selected
- Saved availability is used in buddy matching

Find Buddies

US-10 As a user, I want to filter buddy results by fitness level and availability, so that I only see compatible matches.

- Fitness Level and Availability dropdowns work independently and together
- Results update after pressing Find Matches
- A result count label updates after each search

US-11 As a user, I want to toggle shared goal chips to filter buddy results, so that I find people working toward the same objectives.

- Multiple chips can be active at once
- Active chips are visually highlighted
- Chips combine with dropdown filters

US-12 As a user, I want to browse buddy match cards with a photo and match percentage, so that I can compare potential partners quickly.

- Cards show photo, match %, level badge, and name
- Cards sorted by match % descending
- Tapping a card opens the full buddy profile

US-13 As a user, I want to send a connection request from a buddy card, so that I can connect without extra navigation.

- Connect button is visible on each card
- Button changes to a pending state after tapping
- Already-connected buddies show a different action state

Rewards

US-14 As a user, I want to see my total points in a hero banner at the top of the Rewards page, so that I can check my score immediately.

- Points display in large text
- Value updates after any point-earning action

US-15 As a user, I want to see earned and locked badges in a grid, so that I know what I have achieved and what I am working toward.

- Earned badges show at full opacity with label

- Locked badges show at reduced opacity
- Newly earned badges are highlighted

US-16 As a user, I want to view a leaderboard ranked by points, so that I can see where I stand in the community.

- Shows rank, name, points, and streak per entry
- Sorted by points descending
- My own row is highlighted when visible

Workout Programs

US-17 As a user, I want to browse program cards with a photo, name, level badge, and rating, so that I can quickly find a program that suits me.

- Each card shows photo, name, level badge, rating, and duration
- Tapping a card opens the program detail page

US-18 As a user, I want to filter programs by fitness level, so that I only see programs appropriate for me.

- Dropdown options are All Levels, Beginner, Intermediate, and Advanced
- Filtering updates the card grid immediately
- Empty state message shows if no programs match

US-19 As a user, I want to enroll in a program, so that its workouts are automatically added to my daily dashboard.

- Enroll button is on the program detail page
- Enrolling sets the program as active
- Switching programs shows a confirmation prompt
- Enrolled program is marked on the listing page
